HB No. 1479

Abstract: Requires trailers with a loaded gross weight capacity of up to ten thousand pounds to be equipped with a safety device. Provides for applicability.

Present law requires every trailer and semitrailer with a loaded gross weight capacity of up to six thousand with safety chains or other safety device approved by the Dept. of Public Safety and Corrections.

Proposed law increases the requirement for trailers to a loaded gross weight capacity of up to ten pounds with a approved safety device.

Present law requires safety chains or other approved safety devices to be securely attached to the towing vehicle when the trailer or semitrailer is in motion and requires the safety chains or safety device to be of sufficient strength to hold the trailer behind the towing vehicle in case the connection between the two vehicles detaches.

Proposed law retains present law but removes all references to safety chains and semitrailers under proposed law.

Present law requires the Dept. of Public Safety and Corrections, office of state police to have the authority to approve safety devices other than safety chains to be used when towing trailers or semitrailers. Requires the approval by the office of state police of the safety device to be in writing.

Present law further requires the safety device to be inspected by the office of state police prior to the approval by the office of state police. Provides for certain criteria to be considered when making the determination of whether or not to approve the safety device as an alternative to safety chains under present law.

Proposed law provides that the safety device will have a stamp or a permanent label attached to the safety device and be applicable to the size if the load capacity of the trailer.

Proposed law provides that the provisions under proposed law shall not apply to trailers used solely for farm purposes.

Provides that any trailer sold or manufactured in the state of Louisiana after January 1, 2012, shall have a safety device required by proposed law.

Provides that the provisions of this Act shall only be applicable to trailers registered in the state of Louisiana.

Provides that the pendle hook device shall be exempt from the provisions of this Act.

(Amends R.S. 32:384(D) and (E)(1)(b); Adds R.S. 32:384(E)(1)(d) and (F))
